Some components may be in different positions or not fitted.

- **POSITION 1**  
NEUTRAL POSITION
- **POSITION 2**  
FIRST CLICK
- **POSITION 3**  
SECOND CLICK

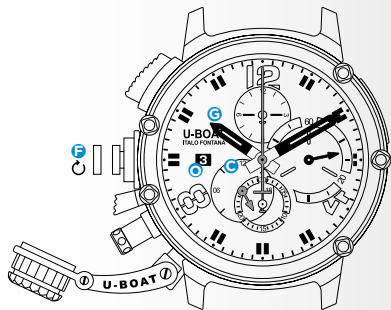

1. Unscrew the cap crown **A** to gain access to the crown **F**.  
**POSITION 1** to wind and start the watch by turning the crown **F** clockwise.

NEUTRAL POSITION

**POSITION 2** press button **N** to move the crown **F** into position 2 (first click).  
 FIRST CLICK Turn the crown **F** clockwise to set the date **C**.

**POSITION 3** press button **N** again to move the crown **F** into position 3 (second click) and turn the crown **F** to set the exact time. Use indicator **C**  
 SECOND CLICK for correct date change **C**.

2. Fully depress the crown **F** to move it back into the neutral position. Carefully screw in the cap crown **A** until firmly in place.

**\*IMPORTANT**  
INCORRECT POSITION

CORRECT POSITION

To prevent misalignment or breakage of the date wheel when setting the date, make sure that:

1. During manual adjustment of the date **G**, hour hand **C** is not pointing between 9 pm and 3 am (check the 24 hour hand **C**).
2. The day indicated by the date indicator **G** is aligned with the window (see the picture next)
3. Take the crown **F** out to the second click, move the hand **G** to 3 pm, depress the crown **F** to the first click and move the date indicator **G** to the desired date and check the alignment as indicated in point 2 above.

## CHRONOGRAPH OPERATION INSTRUCTIONS

Press button **L** (start/stop) to start the chronograph and the hour/minute counters.

Press button **L** again to stop the chronograph and once more to restart it.

After noting the time measured, press reset button **B** when the chronograph is stopped to return the chronograph hand and counters to zero.

## CARE AND MAINTENANCE

- The precision mechanism in your watch will provide long-lasting performance when properly cared for.
- We recommend taking your watch to an Authorised Retailer/Authorised Service Centre every 3-4 years for a check-up and to perform ordinary maintenance on all mechanical parts and restore of water-resistance.
- We also advise taking your watch to an Authorised Retailer/Authorised Service Centre to change the strap.
- Avoid leaving your watch where it is exposed to large temperature variations, humidity, the sun and strong magnetic fields.
- Make sure the watch is in adequate conditions for water use/activities.
- Remember to rinse the watch after it comes into contact with seawater.

**AUTOMATIC WATCHES REQUIRE MANUAL WINDING FOLLOWING A LONG PERIOD OF INACTIVITY.**
