## CARE AND MAINTENANCE

- Your watch will maintain its performance intact for a long time, with the appropriate care.
- We recommend that you have your watch checked every 3-4 years by one of our Authorized Retailers/Authorized Service Centers, to carry out normal maintenance of all mechanical parts and water resistance.
- We also recommend that you contact an Authorized Retailer/Authorized Service Center to replace the strap.
- Avoid leaving your watch in places exposed to strong temperature variations, humidity, sunlight and intense magnetic fields.
- Make sure that your watch is suitable for use in water.
- Always rinse your watch with fresh water after contact with salt water.
- Automatic watches require manual winding after a long period of inactivity.
- Always rinse your watch with fresh water after contact with salt water.

**OPTIMAL OPERATING CONDITIONS: 0° / 60°C.**
